

KOŠICE PEACE MARATHON 2020

Will KPM take place on its original date?

We can declare that preparation for the event is running and so far there isn't any clear obstacle that would stop the organization of KPM in its original date. The situation is being monitored of course and in case of any change we will inform all the participants.

Is it still possible to register for KPM 2020?

Yes, online registration is open and new registrations are adding up daily. Anyone interested can register at <https://registration.kosicemarathon.com/>.

What happens to my registration in case the event will be cancelled for 2020 due to Covid-19 pandemy?

In such case we have prepared an exception regarding starting fee from KPM General terms and conditions.

If the event will be cancelled due to Covid-10 pandemy there will be couple of options for all registered runners who paid starting fee:

- Whole registration will be shifted to next year / KPM held on October 3, 2021
- Possibility to shift whole registration to next year and also to other person.
- In case that runner can not take part in KPM 2021 and has no possibility to shift his/her registration to another person he/she will have one extra possibility to shift teh registration once more to 2022.
